

Workshop on Disability Management 2018

Hong Kong Workers' Health Centre (HKWHC) has established a good network with allied health professionals and external stakeholders. By organizing this workshop, it provides a platform for all of us to share our experience, enhancing our skills and rehabilitation knowledge. Also, it is a chance to summarize HKWHC's experience. We would also want to take this opportunity to publish our rehabilitation manual for sharing our experience to the public. Details of the workshop as follow:
